Town of Selbyville
Bulk Pick-Up

The town has contracted with BFI Waste Systems to collect one bulk item placed at the curb, the first Wednesday of each month, along with the regular trash container. Exceptions are white goods (washers, dryers, refrigerators, air conditioners, freezers). These items will be picked up if residents call our office to set up a date for removal.

1. Items that will NOT be collected are:
   Tires
   Stumps
   Automobile Batteries
   Flammable/Hazardous Materials
   Rocks, Bricks, Dirt
   Oil and Petroleum Products
   Paint
   Construction Debris

2. Tree limbs and shrubbery must be cut into 4' lengths, bundled and placed at the curb.

Inadvertent collection of material placed on, in, or adjacent to bulk items to be collected will not be the responsibility of BFI.
